

Girls Who Code
Lesson 1

Spring 2024

Women in Tech: Dr. Shirley Ann Jackson

- First African American woman to earn a Ph.D. from MIT (specializing in Physics)
- Used physics in her research at Bell Laboratories to influence the creation of the portable fax, touch tone phone, caller ID, and call waiting
- https://www.youtube.com/watch?v=xvGPPE-09OE&ab_channel=BrownUniversityDepartmentofPhysics

Women in Tech: Dr. Shirley Ann Jackson

- What is physics?
- How does physics relate to technology?
- Why do you think it's important to have scientists working in the government?

Icebreaker

What's something fun you did over winter break?

Do you have any new year's resolutions?

What's Different This Semester?

01 Web Dev

We'll be learning HTML/CSS/Javascript to make websites

02 Impact

We'll be working on projects that make a positive impact

03 Groups

We'll be working in groups to make the websites!

What is an Impact Project?

Projects that that solves real world problems that you care about.

Essentially a project that makes a positive impact.

Brainstorming

What are some topics that you might be interested in making an impact project about?

Reflection

- What are you looking forward to this semester?
- What is something you’re nervous about?
- What are you most excited to learn?

Thank you!

- Class next week: Same time, same place (2-4PM)
- Bring your laptops if you can! If not, we will provide you with laptops so don’t worry.
